

MIRAGRAND WELL DRILLING CONSTRUCTION

Dear Neighbors:

Three Valleys Municipal Water District (TVMWD) which owns the property located at 675 E. Miramar Avenue has retained a well drilling contractor to begin drilling construction of the Miragrand Well. The contractor will begin mobilizing on site **Monday August 3, 2020**. The contractor will erect 24-foot tall temporary sound walls/panels around the work area before beginning actual drilling construction.

The anticipated construction duration is about 3.5 to 4 months. As discussed during the public outreach meetings conducted at the District, some of the construction activities will require continuous (24/7) operation. The major construction activities and estimated durations are shown below.

1. Borehole Drilling ~ 5-7 days (**24/7 operation**)
2. Zone Testing ~ 6-10 days (**24/7 operation**)
3. Well Casing Design & Fabrication ~ 10 to 15 days (No Construction activities)
4. Well Construction (Casing installation) – 2 to 3 days (**24/7 operation**)
5. Initial Development ~ 5 days (**24/7 operation**)
6. Rig Down and Test Pump Installation – 5 to 8 days (daytime operation)
7. Pumping Development - 5 to 10 days (daytime operation)
8. Pumping Tests ~ 3 days (**24/7 operation**)

Please check the District's website <https://www.threevalleys.com/projects> for revisions and updates to the project schedule.

Construction of the Miragrand well will enable TVMWD to enhance the use of reliable, less expensive, local water resources over the long-term in a sustainable manner and reduce the need for imported water. We appreciate your understanding.

If you have any questions please contact the Project Manager, Ben Peralta, at (909) 621-5568.

Sincerely,

Ben Peralta Jr., P.E.
