

## MIRAGRAND WELL CONSTRUCTION UPDATE

**Project Update: May 17, 2023**

The groundwater well installation has been successfully completed. The project is now entering its final phase with the installation of California drought tolerant landscape and decomposed granite walk path.

To ensure your safety and the safety of our workers, please obey all posted signs and barriers and avoid entering the construction zone. Please use caution when driving or walking near the construction site. The majority of the construction activities will be limited to onsite only. The landscape installation will start mid-May 2023 and finish in late July 2023. As a reminder, project activities will only occur during normal weekday working hours (7:00 am to 5:00 pm).

Three Valleys is committed to keeping you informed throughout the construction process and will provide regular updates on any changes or impacts to the surrounding community. Construction of the Miragrand well will enable TVMWD to enhance the use of reliable, less expensive, local water resources over the long-term in a sustainable manner and reduce the dependence on imported water. We appreciate your understanding.

Please check the District's website <https://www.threevalleys.com/projects> for periodic project updates.

If you have any questions, please contact me, at (909) 621-5568.

Sincerely,  
Kevin Panzer, P.E.
